

INDEPENDENT DIRECTOR

Director Search Specifications

Company Introduction

This business is focused in the manufacturing space, specifically the plastic packaging sector.

The business is a subsidiary of a successful, well-established and multi-generational, diversified family business.

An independent director with experience in the sector is sought to support the board and accountability processes. Further details can be provided on enquiry.

The board requires monthly face-to-face meetings to be held in Nigeria.

Values Alignment

As a family-founded and held company, family values and culture are integral to its current way of life. Any directors appointed must have an appreciation of this.

Expertise

- Previous boardroom experience critical. Having been an independent director is not necessarily a requirement – however in such cases the candidate must be prepared to commit to relevant training
- An understanding of what makes a high-performance board
- Forward thinking and passionate about production efficiency and innovation in packaging
- Demonstrated commercial acumen and experience in leading a large company's growth
- Strong emotional intelligence to support the board culture of trust and candour while supporting the development of the current directors
- Should be the champion for board and governance effectiveness, and thus would have experience to support this.
